

**RITI dot-Gov project**  
**Finding locations for the Pilot Project Telecentres**  
**11-13 June 2003**

*Country trip taken by  
 Jerker Torngren, Project Director  
 Bogdan Manolea, legal coordinator*

*Crossing the Danube by the ferry boat to get to Frecatei .....only we didn't know there was another small ferry we could use more directly*

*Various location for public pay telephones in Galati and Vaslui counties*

*What if we didn't have a land car? Roads are not the strongest point of the area...*

*Type writers like this not only still exist but apparently also work in Garceni (Vaslui county) .....*

*Asking for directions at the middle of nowhere*

*As much help form the locals as possible. Here with the Mayor and other people of Frecatei (Braila county)*

*And here with the very dynamic Lady Mayor of Rebricea and the representative of Vaslui ANRC territorial office*

*Finally in Frecatei and look what we have found ...nice piece of equipment, isn't it ?*

*The Mayor, the Physician, the Secretary of Balasesti (Galati county), very interested in the idea of a Telecentre*

*With only 3 public pay phone in their commune, the Mayor and Vice-mayor of Coroiesti (Vaslui county) very keen in establishing a Telecentre there*
